David Heaps Zoning Case at 3301 Kings Lane

The Planning and Zoning Commission will hear the proposed zoning change at 3301 Kings Lane, near Robert Mace's property, will be held on 27 January at 7 p.m. CANPAC will be represented. MU is not appropriate for this lot. MU should not be used to avoid negotiations on setback requirements. Al Godfrey and Jay Farrell asked about guidelines for using listserv for gathering neighborhood opinion. That could be a topic at our next General Membership meeting in March 2009. Jolene opposes changes to neighborhood plan and to the future land use map. Al seconded.

VMU Opt-in Opt-out Proposal

Our proposal goes before City Council on 29 January 2009. Continued discussion of scenarios involving LO zoning, MF-2 zoning on back third. VMU is a certainty, but bonuses are at issue. Meeting with Kevin Hunter in the morning.
